- Evaluation-related training and capacity building

## EXPERTISE:

Our team has extensive experience designing and conducting research and evaluations with a wide variety of clients including: pre-K to 12 school systems, higher education, non-profit organizations, corporations, and government agencies. We offer a full range of data-driven services to measure and enhance your project development, implementation, outcomes, and impact.

## METHOD:

Our evaluation approach is highly participatory in order to provide meaningful, actionable information. We collaborate with project managers, staff, and stakeholders to help shape the evaluation, inform data collection methods, and effectively use findings for program improvement.
